## THANK YOU TO PUBLIC WORKS!

We live in a region of the country where snow falls and storms occur at random times. We have experienced this again during these winter months. We are extremely fortunate to live in a community where snow removal of our streets and even our back alleys happen in a very timely fashion.

On behalf of the Town Council, I want to acknowledge and send out a huge thank you to our Public Works staff for doing a tremendous job in keeping our streets cleared of snow this past winter. Your efforts do not go unnoticed and we want to acknowledge you and say thank you for a job well done.

# 2026 CENSUS

FM-019-26

## CENSUS JOBS

Statistics Canada is hiring in your community for the 2026 Census!

- Use your local knowledge to help conduct the census.
- Develop skills that employers are looking for.
- Your contribution to the census can help your community plan and shape its future!

**Important to know**

- There are approximately 32,000 census jobs available across Canada.
- Pay is **\$25.87 per hour** for non-supervisory positions and **\$31.32 per hour** for supervisory positions, plus authorized expenses.
- The time frame for census jobs is between **March and July 2026**, depending on the position and location.
- You must be available to work flexible hours, including days, evenings and weekends.

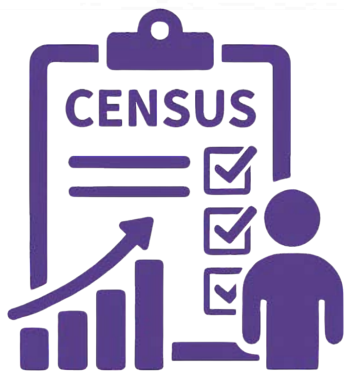

Apply now and tell a friend  
**[census.gc.ca/jobs](https://www.census.gc.ca/jobs)**

If you need assistance with your application, please call 1-833-830-3106  
Teletypewriter (TTY): 1-833-830-3109

### Why is the census important for Canadians?

The Census of Population is about more than just counting people and dwellings. Information collected by the census is used by governments, businesses, social service and ethno-cultural organizations, community associations and others to make important decisions for your community, your province or territory, and for the entire country.

For example, census data are used to:

- Realign the boundaries of federal electoral districts and determine representation in the House of Commons
- Identify new locations for daycare centres, hospitals, police stations, schools, residences for senior citizens, factories and stores
- Identify the need for changes to existing transportation services such as public transit and high occupancy vehicle lanes
- Help calculate federal transfer payments to the provinces and territories for health care, post-secondary education, early childhood development and more
- Plan pensions, health care, housing and employment programs
- Inform social service agencies what language skills their staff need
- Assist businesses to tailor their products to the cultural, occupational, and educational background of their neighbourhood clients
- Allow researchers to study effects of various factors on life expectancy

Since accuracy depends on complete information, participation in the census is mandatory. Answers are collected under the authority of the *Statistics Act* and are kept strictly confidential.

 You can find more information about the census at [www.census.gc.ca](https://www.census.gc.ca) and in [Appendix A—Frequently asked questions \(FAQ\)](#).
